THE HOME PAPER

SAY!

(By CHARLES J. ARNOLD)

I telephoned a fellow about fifteen minutes ago and he said he would be right down to the office—I've now waited fifteen minutes and he is not "right down" yet, but I am "right down" peeved.

You know, that is something I just hate to do—wait on someone who is late to an appointment. I take pride in the fact that I'm always there at the stated time, except with engagements with dentists and dentists. I just can't make up my mind that a fellow ought to rush into a torture chamber.

Election day is only a short distance in the bye and bye. So remember, well, my advice. If you got what you voted for 2 years ago, vote for some more of it.

Some folks, carrying long piteous faces, are not crying about how shamefully the public has treated the nations engineer. The only trouble with said engineer is that he has not been able to keep up sufficient steam to pull the grade. Its a lot bigger job to run the nation than it is to tell the people to use little sugar and stir like "L."

Stirring like "L" don't raise the price of wheat or lift farm mortgages.

The first thing you know I will be getting political.

Gee, I wish I had the power of Rasbok—to be able, single handed and alone, to manipulate Wall street and cause the Republican "economic depression" is sure some power. I really believed the President and the government, could weather the acts of one man. But the Republicans say, Rasbok is responsible for it all.

Over at the second ward the other day, a teacher asked a pupil how many days in the year. The lad answered "seven." The teacher, in astonishment, said: "Why, you surely know better than that, there are 365 days in the year." "Well," said —, "the only ones I ever heard of are Sunday, Monday, Tuesday, Wednesday, Thursday, Friday and Saturday."

The County Club "entertainment committee is planning a regular wild West" entertainment as a Halloween attraction. But really I am skeptical. I'm afraid a "regular" Wild West can't be did."

Ex-Deputy postal clerk, Miss Millie Modlin, stopped me yesterday on the street, and offered to bring me an old but serviceable dictionary. Smile Charlotte.

THE DUTY OF A VOTER TO HIS PARTY

The duty of every voter is to his party and not any individual. A partisan can not do his party more harm than to vote for a candidate simply because his name happens to be under his party emblem. The worth and qualifications of each candidate should be ascertained, for there is nothing more harmful to a party than for it to elect to office a man unworthy and unqualified for office. The day of the "yallar dog" politics has passed. The day when the qualifications and ability to properly perform public duties, of a candidate, should be considered. A party should first see that a qualified and worthy candidate is nominated as its candidate. But should the party nominate a candidate unworthy of support, or renominate a man whose record has proven him inefficient and unqualified then it is up to that party to defeat him at the polls and not put a stamp of approval on his misdeeds by re-electing him.

AVIATION TO SWEEP CITY IS FORECAST

PROGRESSIVE CITIZENS WILL SEE TO IT THAT CITY IS AUTHORIZED TO PURCHASE SITE-GOVERNMENT EQUIPPING WORK SOON TO BE COMPLETED

Have you driven out to the Government Emergency landing field, just south-east of town and seen the wonderful landing field, with its thousands of dollars in equipment, installed by the government, that the citizens of Greencastle are being asked to endorse, by voting \$6,000 for the purchase of the land, occupied by the field?

To anyone who has seen it and realizes that the Government is spending from \$8,000 to \$10,000 in conditioning and equipping this field, and will provide a caretaker for it after its completion, provided Greencastle furnishes the land, the question of "For Aviation" or "Against Aviation" is a simple one to decide.

At any time the City desires to take over the field it may do so without cost, as the Government will simply turn it over to the city. The only expense the city would acquire in taking it over would be the cost of a caretaker.

In the meantime the city will have a modern and perfectly equipped airport, which can be used by any and all aviators coming to Greencastle. There is only one stipulation and that is that the field cannot be used for commercial purposes as long as it is under the control of the Government.

The purchase of the landing field site by the city means that Greencastle will be one of the relatively few small cities in the country having a modern and Government approved airport for a minimum cost.

\$50 In Undivided Money Cause of Squal Youth Says—Is Said to Have Been Making Liquor

NASHVILLE, Oct. 18.—Bloomington police joined today with authorities of Brown county in searching for the body of a uniformed man said to have been murdered about eighteen months ago in Johnson township, Brown county, fourteen miles southwest of Nashville.

Two men have been arrested in connection with the alleged slaying. Sheriff D. S. Wilkerson of Brown county, is holding as prisoner Marion Rogers, 44 years old, a resident of Polk township in the southeastern section of Monroe county, who is implicated in a confession made by Leon Grubb, 18, also of Polk township.

The Brown county sheriff and his deputies today were searching for the body of the man who Grubb said, was slain by himself and Rogers when they were apprehended while preparing to operate a whisky still.

Grubb is said to have confessed to the alleged crime because Rogers did not divide \$50 in cash which the former took from the slain man's body before throwing it in Salt creek. Rogers denies knowing anything about the alleged murder and stoutly maintains his innocence.

VOICE OF THE PEOPLE

I see a published statement that "thru the efforts and work of Mr. Chew, Trustee of Washington township, that township has been made the recipient of a check for \$1495.29 as state aid for our schools, and that a similar amount will come to us some time next spring. There are those who seem to think it quite complimentary to Mr. Chew to have proven himself to be so successful as a beggar for our township but so far as I have heard the taxpayers are ashamed and feel very much humiliated to find themselves on the pauper list. We hope to get out of such a dilemma in the near future.

The game was originally announced as a night game, but the athletic authorities of the two schools have agreed to play the game in the afternoon.

The Tiger Cub coach is working his boys particularly hard on defense against the forward pass as they have failed to solve any passing offensive thus far this season. By the use of the short forward pass Bloomfield, a team very little better than the Cubs, handed the purple and gray a 16 to 0 trouncing Friday afternoon on Blackstock field.

FILES REPLEVIN SUIT IN JUSTICE OF PEACE COURT

JOHN CROWMER SEEKS TO REGAIN POSSESSION OF CORN HELD BY JANE RUNYAN—IS SECOND LEGAL ACTION IN INTERCATION

John Crowmer, has filed suit in the court of Justice of Peace J. P. Brown of Jefferson township to replevin 100 bushels of corn valued at \$75 from Jane Runyan of Jefferson township. Crowmer alleges that the Jefferson township woman unlawfully has possession of the corn which is his property.

The suit is the second legal action which has resulted from an altercation over the division of a corn crop grown by Crowmer on land owned by Mrs. Runyan. Crowmer alleges that he is entitled to two-thirds of the crop, while Mrs. Runyan claims he is only entitled to one-half of the crop.

Late Saturday, Jane Runyan filed charges of grand larceny against John Crowmer and his son, Roy, because she alleges they had taken 100 bushels more than their share of the corn crop. The corn was later given to Mrs. Runyan, and Crowmer is attempting to recover it.

Deputy sheriff Alva Bryan took the men into custody Monday morning, and they were arraigned before Judge James P. Hughes. The son took the blame for the act, but pleaded not guilty, and his trial date was set for November 12. He is at liberty on a bond of \$200.

This is to be strictly fact-finding survey and the community is asked to co-operate with those who are making the survey in order that it may be just as accurate as possible. The leaders of the churches and of the religious activities of the community would like to know the church relationship or preference of every family in the community. They would like to know what proportion of our population has any connection with any church. The information received in this survey will be kept on file by the Community Board of Religious Education, and will be available for use by any church or church organization in the community. Following the new census which was taken recently by the government, these religious surveys are being taken in many cities in the country.

As a means of assisting in the work of the free employment bureau to be set up in Greencastle, certain facts regarding occupation will be included in this survey. Prof. L. M. Jones and students in the department of Sociology are giving special attention to this phase of the census.

EXPERIENCE IS JUDGED SOLELY BY ITS RESULTS

COURTLAND C. GILLEN, DEMOCRATIC CANDIDATE FOR CONGRESS, SAYS ACCOMPLISHMENTS SHOULD BE BASIS FOR RE-ELECTION OF OFFICER

DANVILLE, Ind., Oct. 27.—Courtland C. Gillen, Democratic candidate for Congress started his final swing around the Fifth District here tonight, speaking before a large and enthusiastic crowd.

Mr. Gillen reviewed the issues of the campaign, and taking up the question of "Experience" said:

"Some of our Republican friends are basing 'Experience' as practically the sole reason for re-election. The value of experience is determined by what has been put into it, and by what has issued out of it. There are physicians with a life long experience, whose sole accomplishments have been to add to the population of our cemeteries. There are lawyers with years of practice, whose clients, innocent though they may have been are now pining behind prison walls."

"A smile and the ability to tell a good story are fine but these coupled with 'Experience' never changed a freight rate, converted agriculture from a debtor to a creditor concern, restored unemployment, secured hospitals, landed aviation fields or dredged a river."

"Does not twenty-five years experience and training in the thorough preparation of client's cases fit one in the rudiments of preparation necessary to present his constituents' case before the bar of Congress, or the departments of government?"

"Does not a close study for thirty years of the science of government equip one to engage in the orderly processes of legislation?"

"Does not a life long and sincere study of our Federal Constitution equip one to pass upon the validity and constitutionality of a proposed piece of legislation?"

"With a knowledge of what people want, what is to prevent me from voicing those desires in Congress? With a knowledge of our social, economic and industrial needs, what is to hinder me from applying this knowledge to the enactment of beneficial legislation? With twenty-five years experience in pleading the cause of others before the bar of justice what is to hinder me from pleading the individual or collective needs of my constituents before the various departments of government?"

FRED HOKE TO SPEAK IN DEPAUW CHAPEL

TWENTY-NINE MEN ENTOMBED BY EXPLOSION

RESCUE WORKERS STRIKE BLACK DAMP AT FIFTEENTH LEVEL OF MINE—LEGION AIDS IN ATTEMPT TO SAVE MEN

ONE BODY IS FOUND

Other Workers Are Buried Alive On Sixteenth and Eighteenth Levels Of Mine—Are 3,600 Feet From Mouth

McALISTER, Okla., Oct. 28.—All hope for the rescue of twenty-nine miners entombed by an explosion in the lower levels of the Wheatley No. 4 coal mine of the Samples Coal Company was virtually abandoned at 5:30 a. m. today when the rescuers encountered black damp at the fifteenth level of the mine.

The men are entombed in the sixteenth, seventeenth and eighteenth levels, 3,600 feet from the mouth of the mine.

Crowds of curious and relatives of the trapped miners surged about the mouth of the mine adding difficulty to efforts to maintain order. A group of the American Legion members, who were among the first to arrive at the scene following the blast, took immediate charge in controlling the crowds.

The entire forces of a rescue station, maintained here for such emergencies, and volunteer workers have been enlisted to aid in the rescue of the entombed miners.

The body of William Donley, a miner, was found a short distance inside the mine. He was killed by the force of the explosion.

The Wheatley No. 4 is a slope mine extending between 3,000 and 4,000 feet from the mouth of the mine. It is located in North McAlister on the state penitentiary farm a short distance from the prison.

Hints For Homemakers

By Jane Rogers

WASHABLE summer curtains should be laundered and put away unrolled for the winter.

While the time has passed for preserving the summer fruits, there is still ample opportunity to cut winter food bills by putting up the late products of the garden. Remember, too, that delicious jams and marmalades whose sugar content will provide needed warmth and energy during the winter months, can be prepared all winter long with the dried fruits such as prunes and apricots.

TO ADD 592 ACRE FARM TO INDIANA STATE PENAL FARM

Indiana State Farm Trustees have leased the W. P. Lockridge 592-acre farm west of Greencastle, with the privilege of later buying it, according to reports here recently.

Mr. Lockridge sold most of his farming implements at public auction on Thursday and will turn his farm over to penal farm authorities at once, it was said. The farm is one of the most productive crop and grazing farms in the county, being located along Big Walnut creek south and west of Greencastle a few miles.

Penal farm authorities have been pressed for some time to find work to keep the increased state farm inmate population employed. Leasing of this huge farm will provide work for many of the short term prisoners.

If it is decided to purchase the farm the general assembly next January will be asked to make an appropriation to buy the additional acreage.

AUTOCH COLLEGE PROFESSOR SPEAKES ON RUSSIA

"Russia" Dr. Rudolf Broda of Autoch College said in University chapel Monday, "is conducting a great experiment that may make it the wealthiest and most powerful nation in the world. Its system is not perfect but is deserving of close study from the rest of the world so that other nations can take the good and reject the bad."

Dr. Broda's impressions came from a number of trips through Russia and from visiting some of the machinery of government under the communistic rule. The speaker touched on five major topics.

The first was the industrial transformation being carried on in that country. Russia is attempting to scientifically produce all that it needs and produce only enough to meet its own demands. There is no business crisis in Russia as it is one great enterprise and has no fluctuation.

The dark side of the problem is that progress must be made at a savings achieved at great hardships and suffering. A minority holds the reins and is willing to suffer, a great majority is compelled to accept while a third party, that of the old regime, is deprived of citizenship.

Religious persecution is not such. It is more a discrimination, the speaker said. Religious groups are independent societies and have been disestablished from state support under the old rule. No religious teachings are allowed to youths under 18. Communism hopes to achieve its lesson without competition from religion.

Marriage laws are loose. Divorces may be made by either party on slight ground and with unusual expediency. A one year rule makes either party liable for assistance to the other in cases of illness or unemployment.

A great stride has been taken in education to eliminate illiteracy. Books have been translated into the fifty or sixty languages spoken in Russia and schools established in the native tongue. There is yet no personal liberty, no political parties, no popular parliament, only the will of a minority being imposed upon a majority, Dr. Broda said in closing.

FILES AGAINST R. HOWARD ASKS HABEAS CORPUS WRIT

Everett Smith of Terre Haute, who according to his complaint was committed to the Indiana State farm at Putnamville, October 15 has filed against Ralph Howard, superintendent of the institution for habeas corpus in the Putnam circuit court.

Smith alleges that he is being unlawfully held at the Putnamville institution by Mr. Howard. He states in his complaint that the sentence given him by the Vigo circuit court had expired when he was committed to the State Farm.

He sets forth in his complaint that he was sentenced to the Indiana State Farm for a period of 180 days and fined \$500 and costs by the Vigo circuit court in 1925 on a charge of assault and battery, but the day after he was sentenced, he alleges, he was discharged. The complaint sets forth that when he was committed to the institution on October 15 the sentence had expired.

A Sudden Freeze—and Trouble

A SUDDEN drop in temperature—frozen radiator—car in the garage for repairs! That story will be told over and over again for the many thoughtless motorists who neglect to put their cars in proper condition for winter driving.

Automobile authorities, the United States Weather Bureau and the United States Bureau of Standards have come to the assistance of the motorist in an effort to reduce the enormous damages done the automobiles of the country during winter freezes.

Warnings are now being issued detailing the necessary steps toward preparing cars for freezing temperatures, the Weather Bureau announcing approximate dates when the first freezes may be expected, the Bureau of Standards fixing the essential qualities of the perfect anti-freeze solution, and automobile experts giving specific directions as to the proper care of the automobile cooling system.

It is pointed out that there must be a thorough cleansing of the cooling system and a tightening up of all parts before even the best of anti-freeze solutions will function properly and give adequate protection.

As to the choice of an anti-freeze, the Bureau of Standards, after long research, advises that the solution should meet these nine tests: (1) must give complete protection, (2) should not boil away, (3) must do no damage to the cooling system, (4) should not heat up the motor, (5) should not affect the paint or varnish of the car, (6) should be odorless, (7) must be non-inflammable, (8) should not be viscous at low temperatures, (9) should not deteriorate.

It pays to know

WHEN you spend your money for the seven and seventy things that are always popping out of nowhere to demand a portion of your income, you want to be certain they are returning the utmost in value for your every dollar.

But how can you know the worth of the products you buy? Can you test them scientifically?

Can you make microscopic examinations for flaws and imperfections? Chemical analysis for purity and composition? Physical machine-tests for stress and strain, strength and durability? Have you laboratories equipped for this work? Can you afford the scientists and research workers to perform it?

There is a less expensive way to safeguard your purchases. A better way to buy.

Buy products that have been tested by others! Products that have passed the most ruthless and rigid of all tests . . . that of actual use! Nationally known, nationally liked, nationally used products! Advertised products!

Here, in the advertisements, are products of sound worth brought to your attention. Products manufactured to standards of certain quality, that have been tried and tested by the most exacting persons . . . people who have bought them, and used them over and over again. Products worth your money.

Get the habit of reading the advertisements. It pays.

Buddy Rogers Opens Tomorrow in "Young Eagles"

You've long waited to see Charles (Buddy) Rogers, Paramount's handsome young star, in something really fine and far above the ordinary. Wait no longer! "Young Eagles" is at the Voncastle theatre Wednesday and Thursday, matinee and night, and it's the best thing Rogers has done since his memorable role in "Wings." Indeed, "Young Eagles" has everything that "Wings" had, and, in addition, it's all-talking.

The story centers around Buddy's love-affair with a girl spy, whether a friendly spy or an enemy spy. Buddy doesn't know, and around Buddy's strange friendship for the man he fights bitterly in the air. "Young Eagles" has the spirit of the laughing, dashing, daring airmen in it—it immortalizes the knight-errantry of the sky-fighters.

Paul Lukas, as Buddy's friendly enemy, is superb and Jean Arthur, Buddy's girl-friend of "Half Way to Heaven," again gives her beauty and talent to the support of the star.

INTRODUCING

ROY WILLIAMS

(Note: This is the fourteenth of a series of cuts and thumb-nail sketches prepared by the DePauw University Publicity Department to introduce to readers of The Herald, members of the 1930 Tiger football team.)

Roy Williams, the lanky sophomore who is giving Pope such a battle for starting position at right end, hails from Chicago, and like Pope is a sophomore, product of last year's freshman team.

Williams has a ten pound advantage over Pope weighing 163 pounds. In the last few games, the opposition has found going around DePauw's right end a bit trying and usually when the ball carrier is tackled and down you will find Williams is the boy wrapped around the opposing backfield man's legs.

In case you should want to watch the work of this man, hunt for sweater number 29 and the shoulders beneath it belong to Mr. Williams.

JAMES A. FARLEY

President, General Builders Supply Corp.; Chairman, New York State Athletic Commission; Chairman, New York State Democratic Committee

"I am certain that without the use of modern, scientific methods the skyscrapers for which our country is so justly proud would never have been possible. I am equally convinced that your modern use of the Ultra Violet Ray in the Toasting of your LUCKY STRIKE Tobacco ranks with the many other great contributions to the health and comfort of millions and that it is responsible for the skyscraping sales of your famous brand."

Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray. LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED."
